PROFESSIONAL EXPERIENCE

Adroit Studios - University of Missouri

Aug 2022 - Present

LEARNING EXPERIENCE DESIGNER - SERIOUS GAMES

- Design serious games and interactive learning experiences in alignment with NGSS and curricular standards for K-12 and higher education audiences
- Collaborate with researchers, artists, developers, and subject matter experts to translate complex topics into interactive narratives, gameplay systems, and visual learning materials
- Develop storyboards, prototypes, and technical design documentation
- Contribute to iterative design, testing, and content refinement
- Support research and grant initiatives related to educational games

Tulsa Community College

Dec 2019 - Dec 2020

STEM PROGRAM COORDINATOR

- Coordinated and implemented STEM programs serving under-resourced high school student populations
- Developed curriculum and educational programming focused on college readiness and STEM engagement
- Facilitated partnerships with schools, educators, and community organizations to support student access and participation
- Supported student mentorship, career exploration, and academic readiness initiatives

Haas Hall Academy

Aug 2017 - Aug 2019

SCIENCE FACULTY

- Designed and taught interdisciplinary middle and high school science courses including biology, environmental science, astronomy, and applied STEM electives
- Developed curriculum and project-based learning experiences emphasizing scientific inquiry and student engagement

Missouri State University

Aug 2015 - Dec 2016

GRADUATE TEACHING ASSISTANT

- Taught undergraduate introductory biology laboratory courses
- Assisted with curriculum implementation, grading, and laboratory management
- Supported student learning through hands-on scientific instruction and mentorship

SKILLS

Interactive Learning Design

Instructional design, game-based learning, curriculum development, science communication, multimedia systems design, and educational storytelling

E-Learning Tools & Prototype Development

Unity, Construct 3, HTML5/CSS3, C#, Java, Adobe Captivate, Articulate Rise

Creative & Multimedia Tools

Figma, Blender, Adobe Creative Suite, video/audio editing

EDUCATION

University Of Missouri

Educational Specialist (Ed.S.) in Learning Technologies and Design
Graduate Certificate in Serious Games and Simulation Design

Missouri State University

Master of Natural & Applied Science in Biology

Pittsburg State University

Master of Science in Psychology

University of Central Arkansas

Bachelor of Science in Family and Consumer Sciences/ Nutrition

SELECTED PROJECTS

Project titles link to trailers and summaries

Mission Hydrosci

NGSS-aligned 3D science learning game designed to help middle school students explore water science and scientific argumentation.

NutriQuest

Cooperative 2D platformer game focused on nutrition education for middle school learners.

ScanBright

Interactive medical training platform developed to support radiology residents in interpreting radiographs and CT scans.

Emergence

3D interactive learning experiences designed to visualize abstract undergraduate biochemistry concepts.
